

What are some manufacturers of mobile civilian fiber optic cables in Australia

AI Overview

Key Australian manufacturers and suppliers of civilian fiber optic cables include Anderson Corporation, Apollo Technology, and Fibre Optic Systems. Anderson Corporation is an Australian-owned and operated company that has been supplying fiber optic solutions since 1988. They provide a wide range of products including drop cables, splitters, fusion splicers, and OTDRs, suitable for civilian and commercial network deployments. Their offerings are designed for FTTx networks and other mobile or field applications, emphasizing quality, cost efficiency, and future-proof connectivity (Anderson Corporation). Apollo Technology supplies OM3, OM4, and OS2 fiber optic cables, along with MTP/MPO solutions, pre-terminated assemblies, and SFP modules. They cater to installers, data centers, and field teams, offering custom-length patch leads and both single-mode and multi-mode options. Their products are suitable for mobile civilian applications, providing stable performance and rapid delivery across Australia (Apollo Technology). Fibre Optic Systems (FOS) Fibre Optic Systems, headquartered in Melbourne, is a manufacturer and distributor specializing in fiber optic and copper solutions. They focus on rapid production of fiber optic assemblies, tailored solutions, and high-quality manufacturing for civilian and commercial networks. FOS emphasizes fast turnaround, technical expertise, and innovation, making them a reliable choice for mobile fiber optic deployments (Fibre Optic Systems). Additional Notes While global manufacturers like Corning, Panduit, and Superior Essex are prominent in fiber optics, for Australian civilian applications, local suppliers such as Anderson Corporation, Apollo Technology, and FOS provide the advantage of domestic support, faster delivery, and compliance with local standards (thenetworkinstallers.com, tscables.c...
