

What are some manufacturers of optical fiber cables in Panama

AI Overview

Panama does not appear to have significant domestic optical fiber cable manufacturers; the market relies heavily on imports. Market Overview Panama's optical fiber cable market is largely import-driven, with China supplying approximately 79% of total imports, followed by the United States at 11% and Spain at 4.1% in value terms. The average import price for optical fiber cables in 2024 was around \$6,158-\$6,169 per ton. Local production exists at a very limited scale, primarily for assembly or minor processing, but there is no evidence of major manufacturing facilities producing optical fiber cables domestically. Key Importers and Buyers While Panama lacks large-scale manufacturers, there are numerous importers and buyers active in the market. Verified buyers include ANIXTER PANAMA SA, LOGISTICA BG, and Electronica Newton S.A., which collectively account for a significant share of imports. Other notable importers include TSK PANAMA, S.A., and CAJA DE SEGURO SOCIAL, which facilitate distribution and deployment of optical fiber infrastructure. Implications For businesses seeking optical fiber cables in Panama, the primary strategy is sourcing from international manufacturers and working with local importers or distributors. Platforms like Trademo and Volza provide detailed trade data, shipment histories, and buyer contacts, which can help identify potential partners for supply or distribution. In summary, while Panama has a growing demand for optical fiber cables, domestic manufacturing is minimal, and the market is dominated by imports from global suppliers.
