

Which company makes the best fireproof cable trays in Australia

AI Overview

EzyStrut, Ozstrut, and Trafalgar Fire are leading Australian companies offering fire-rated cable trays and fireproof cable support systems. EzyStrut is a pioneer in fire-rated cable support systems in Australia, offering over a thousand certified options and custom solutions for challenging projects. Their Fire Rated ET5 Tray is designed for both indoor and outdoor installation, providing reliable fire protection while maintaining a clean finish. EzyStrut products are widely used in commercial, industrial, and infrastructure projects, ensuring compliance with Australian standards and safety regulations. Ozstrut provides fire-rated cable trays specifically engineered to maintain circuit integrity during fire events. Their T3 Series is suitable for both light and heavy-duty applications, offering robust performance, corrosion resistance, and modular design for easy installation. Ozstrut trays are trusted in high-risk environments such as data centers, hospitals, and industrial facilities, ensuring safety and compliance under extreme conditions. Trafalgar Fire offers cable fireproofing systems that prevent flame spread and maintain operational circuit integrity for non-fire-rated cables exposed to fire. Their solutions include strategies for both vertical and horizontal flame mitigation, often used in insurance-driven industrial applications. Trafalgar's systems are FM-approved and designed to enhance infrastructure resilience while protecting critical systems like alarms, lighting, and communication networks.

For fireproof or fire-rated cable trays in Australia, EzyStrut, Ozstrut, and Trafalgar Fire are the primary suppliers. They provide certified, durable, and compliant solutions suitable for commercial, industrial, and high-risk infrastructure projects, with options for both standard and custom installations.
