

Wholesale Price EDFA 100G

AI Overview

Wholesale EDFA modules for 100G networks are available from multiple suppliers, with prices typically negotiated per order and dependent on specifications such as DWDM channels, output power, and form factor.

Overview of 100G EDFA Modules
Erbium-Doped Fiber Amplifiers (EDFAs) are essential for amplifying optical signals in high-speed networks, including 100G systems, without converting them to electrical signals, ensuring low latency and high signal fidelity. For 100G applications, EDFAs are often integrated with DWDM (Dense Wavelength Division Multiplexing) to support multiple channels (e.g., 4, 8, 16 channels) simultaneously. These modules are designed for telecom, data centers, and long-haul optical networks, offering features like automatic gain control (AGC), low noise figures, and high output power (often exceeding +20 dBm).

Wholesale Pricing Considerations
Supplier Type: Prices vary depending on whether you source directly from manufacturers (e.g., China-based factories) or through distributors. Factory-sourced EDFAs often offer lower wholesale rates and customization options.
Module Specifications: Factors affecting price include channel count, output power, tunability, and compactness. Tunable or broadband EDFAs generally cost more than standard fixed-wavelength modules.
Order Volume: Bulk orders typically reduce the per-unit cost. Many suppliers provide tiered pricing based on quantity.
Global Shipping: International shipping and import duties may influence the final cost, especially for large modules or high-power units.
Supplier Options
Alibaba: Offers a wide range of EDFA modules with customizable options for 100G networks, including compact and tunable designs suitable for edge and access networks.
Made-in-China: Lists factory-priced EDFAs with competitive wholesale rates, allowing for OEM customization and bulk purchasing.
HUANET: Provides 100G DWDM EDFA modules with multiple channel options (4, 8, 16), shipping globally.
AliExpress: Offers smaller-scale wholesale optio...
