

Wholesale price of cable trays in the Netherlands

AI Overview

Cable trays in the Netherlands typically range from €20 to €200 per meter, depending on material, type, and specifications.

Price Overview

The cost of cable trays varies significantly based on material, design, and load capacity:

- Galvanized steel trays:** Generally priced around €20–€50 per meter, suitable for standard industrial and commercial applications.
- Stainless steel trays (AISI 304):** Higher durability and corrosion resistance make these trays costlier, typically €80–€200 per meter, depending on width, height, and custom features.
- Aluminum trays:** Lightweight and corrosion-resistant, usually €50–€120 per meter.
- Fiberglass or plastic trays:** Used in specialized environments, prices range from €40–€100 per meter.

Types of Cable Trays

- Ladder-type trays:** Common for heavy-duty industrial use; prices are influenced by rung spacing and load capacity.
- Solid-bottom trays:** Provide full cable protection; slightly more expensive due to material usage.
- Wire-mesh trays:** Lightweight and flexible, often used in data centers; mid-range pricing.
- Channel systems:** Compact and modular, suitable for tight spaces; prices vary with customization.

Market Factors Affecting Prices

- Material costs:** Steel and aluminum prices fluctuate with global commodity markets.
- Regulatory compliance:** Dutch NEN standards and IEC harmonization may increase costs for certified products.
- Project scale:** Bulk orders for large construction or renewable energy projects can reduce per-meter costs.
- Geographic demand:** High-demand regions like Randstad (Amsterdam, Rotterdam, The Hague, Utrecht) may have slightly higher prices due to logistics and installation demand.
